Report To: Council

From: Barbara Koopmans, Commissioner, Development Services

Date: October 19, 2020

Report No: DS-040-20

Subject: Recommendation Report - Street Name Bank

Recommendation: THAT Council approve the inclusion of additional street names to the Street Name Bank, tabled in Appendices "A" and "B" to report PD-040-20.

EXECUTIVE SUMMARY

- Staff received nineteen (19) street name nominations for the Street Name Bank since the last report in December 2019.
- In addition, staff is also recommending eight (8) veteran names commemorated on Milton's Cenotaphs to honour soldiers who gave their lives for Canada.
- The criteria for evaluating nominations is set out in revised Corporate Policy 70.
- In conjunction with Milton Fire Department and our emergency service partners at Halton Region (Halton Regional Police and Halton Paramedic Services), staff has completed the review of submissions.
- Staff recommends that the eleven (11) names contained in Appendix "A" Proposed Historical and Commemorative Names and all eight (8) names in Appendix "B" Veterans Names be approved; as they comply with the evaluation criteria set out in the policy.
- Approved street names by Council may be subject to further review by our emergency service partners, as there is often a time lapse between Council approval and street name assignment.
- Conflicts may arise by the assignment of the same or similar street names in other Halton municipalities.
- Appendix "C" contains eight (8) street name nominations that do not meet the policy's criteria and are not recommended for approval.

REPORT

Background

The Town of Milton Corporate Revised Policy 070 sets out the process for naming new streets in Milton. It includes three (3) Approved Street Name Categories to which new street names need to comply. These categories are:

A. Historical Names

- To celebrate a sense of place, continuity, and belonging to new developments, Development Services staff will, wherever possible, suggest at least one street name within each new plan of subdivision that relates to the people, places, events or things of that local area. For example, local history, geography, flora, fauna, accomplishments, and heritage

B. Commemorative Street Names

- Names that recognize individuals, families or businesses that have made a significant historical contribution to the Town of Milton.
- Names that recognize local histories such as events, land uses, cultural landscapes (aboriginal, pioneer, ethnic diversity) relative to the Town of Milton and the Regional Municipality of Halton.
- Names that acknowledge the Town's heritage resources, including heritage buildings, structures, sites, natural features, local geography and landscapes.
- Names that commemorate war veterans from the Town of Milton. All new street signs used to celebrate veterans shall be marked with a red poppy.
- Names that recognize local citizens and organizations who have had substantial international recognition in their chosen discipline, have significantly contributed to the community at a provincial or national level.

C. Themed Names

- Each neighbourhood* shall have a defined theme, and all new non-historic and non-commemorative street names within a particular district shall comply with that theme.

* Neighbourhood as defined by the Town of Milton Official Plan

Discussion

Development Services staff continues to receive a steady stream of street name nominations from the public for the Street Name Bank. In addition to these nominations, staff recommend eight (8) additional veteran names identified on Milton's Cenotaphs to honour our war heroes. In conjunction with Milton Fire Department and our emergency service partners at Halton Region (Halton Regional Police and Halton Paramedic Services), staff has completed the review of names received from Dec 2019 to August 2019.

To minimize the potential for confusion within the Region, particularly in the provision of emergency services, staff must ensure that:

- the proposed name does not duplicate or is similar to another street name within the Region;
- the potential for spelling errors which could impact the use of computer-aided dispatch system emergency service partners;
- ease of pronunciation; and
- other criteria as stipulated in the policy.

In total, staff reviewed nineteen (19) proposed Historical and Commemorative names. Of these, eleven (11) names meet the policy criteria and are recommended for inclusion into the Street Name Bank subject to Council approval (see Appendix "A").

Staff also recommends an additional eight (8) veteran names (see Appendix "B"), found on our Cenotaphs be recommended for Council approval. Staff will be reviewing and researching more veteran names with the help of Heritage Milton from the various Cenotaphs and will bring forth future recommendations when available.

Street name nominations that do not meet the policy's criteria are listed in Appendix "C." These names are not suitable as they are already used in Milton or other Halton municipalities and do not comply with the policy's criteria.

Approved street names by Council may be subject to further review by our emergency service partners at Halton Region. The lapse of time between Council approval and adopting these names may conflict with other street names already implemented for other Halton municipalities during the adoption period.
