- **Please indicate how you intend to interact with the online Council Meeting**
Both audio and video
- **Please describe the issue you intend to present:**
I am concerned regarding the impact of the proposed Application in terms of affecting the groundwater source, traffic congestion, school availability, energy conservation, and the height of the buildings related to privacy.
- **Please describe specific actions you want Council to take:**
I would like Council to consider the possibility of 4-6 storey buildings instead of those proposed, and alternate forms of energy sources such as solar, geothermal. Additional requirements related to water energy conservation (i.e low flow faucets, state of the art energy efficient appliances, etc.) could be considered, and the feasibility of providing schools to manage the increased population.
